

## Post-doctoral candidate

The Dekel lab in the Shamir Research Institute is recruiting highly motivated candidates for a postdoctoral position.

### Requirements:

- Ph.D. degree in genomics and/or bioinformatics or equivalent with extensive relevant experience.
- Knowledge, background, and/or experience in molecular biology and NGS
- Excellent communication skills (verbal and written) and ability to communicate and work effectively and positively with all levels of the organization
- Advantage for mammals and plant applied genome and genotyping

Interested applicants should electronically send the following materials no later than February 1, 2019: curriculum vitae, statement of purpose and three (3) current letters of recommendation.

For material submission and for further details, please use the E-mail below:
